Dear Friends

May, 2020

Some of you might be wondering if we are all alive and well here at Resource Consultants since we haven't put out a letter recently. Yes, we are still here, no one has gotten the virus and we are feeling very blessed that we have not had to do much of anything different in regard to continuing to run our company, since we work mainly over the phone and through emails.

We have, however, been extremely busy which we thank you for! Many items, especially silver Bars and bullion coins are on backorder but most are still available if you don't mind waiting a few weeks in some cases for delivery. Most of our clients are quite gracious and look at the delay in shipping as just free storage until delivery.

U.S. 90% silver coins are still live and ready to ship as well as some other products. The availability and premiums are constantly changing so just call us anytime you want a price or lock in an order.

Silver Eagles as well as bars and rounds are still available for purchase but much delayed in shipping so far. The Silver coins that have been carrying the lowest premiums and quickest delivery times recently have been the Australian 1oz Kangaroo .

Gold has remained pretty much live and although the buyers are once again getting involved at a faster pace, the delivery time has been pretty fast. We continue to recommend our clients to pick up as much of the precious yellow metal as will fit in the budget. Gold is, in our opinion, one of the best hedges against inflation as well as an easy private store of wealth. Again, the premiums can vary considerably from one coin to another at any given time so call for the best gold prices available and stock up!

One bullion item we want to make sure you don't miss adding to your portfolio is the one ounce 2020 Platinum Eagle! At this time we have these brand new 1oz 2020 coins at the same price as a one ounce bar! U.S. platinum coins normally have a hefty premium above what we see on most other countries coins and private mint bars. This is a great value!

Platinum is 30 times more rare than gold and at this time the ratio is totally out of whack. We now have 1oz Platinum available at less than half the price of a 1oz Gold Coin! If you have never owned platinum, this could be the best opportunity to come along in a very long time to do so!

United States pre 1933 gold coins value are based on the coin's gold content as well as its condition and its rarity. Long cherished by both collectors as well as astute investors as a store of wealth, these coins are available for close to bullion prices for the circulated pieces and are also a wonderful addition to a portfolio in various dates and grades of Mint State conditions which are graded by PCGS or NGC. Our prices are usually much better than our competition.

Remember, our newsletter is free and to receive you or your referral only need to go to our website [www.buysilvernow.com](http://www.buysilvernow.com) and subscribe! Call Resource Consultants, Inc. 800-494-4149 to speak with one of us or to place an order. We are also here to help you liquidate when the time comes if you should choose to do so.

This will be a very short letter. There has been enough doom and gloom on the media to choke the joy out of life. We hope and pray you are well and doing your research rather than just believing whatever the media throws out there. In uncertain times such as these, have tangible assets handy and stock both your pantry and your safes. With wisdom and perseverance *we will make it through this*. We are seeing more people coming into the market in the past couple of months than we have seen in a long time. That tells us that those who are being proactive and getting ready for whatever is ahead monetarily. The more who take fiscal responsibility for their own livelihood the better off we will be as a people and a nation.

We hope you will share this letter with your friends, they can subscribe at [www.buysilvernow.com](http://www.buysilvernow.com). Also, you can find us on Face Book: **Resource Consultants, Inc.** Please "like" and share our page!

**We also are thrilled that you continue to send us referrals every day. We really appreciate it! In fact, we would like to thank you with a gift of silver. Some years back, we offered sterling silver money clips with 1oz Silver Eagles inserted around Christmas time as gift ideas. We have stored about 100 away and decided that instead of changing out the year we would give these to any client who refers someone to us who becomes a new client of ours in the month of May and places a minimum \$5000 order. If the coins in the money clips have become toned over the years they can be cleaned with silver cleaner. We do not clean coins and the patina can be quite beautiful too. However, since a money clip is essentially a piece of jewelry, you will not make it worth less by polishing it.**

Thank you for your friendship, your referrals and your business.
